This permit is issued upon the express condition that the off-street parking facilities provided shall be permanently maintained, and that the permitted use of the premises shall be automatically terminated if and when such facilities may be curtailed or abolished in any way. Said building is also to conform to acceptable building standards. There shall also be continued progress or the City shall have the right to revoke such permit after a reasonable amount of time depending on the type of construction. This shall be determined by the Zoning Administrator and brought before the Governing Body. It shall be the Applicant's responsibility that all construction will conform to zoning requirements and regulations in force when the permit is granted. This building permit shall be effective for 180 days following the issuance date.

Permit Cost: \$25.00 for work up to 399 sq. ft.
Including fence projects, flagpoles, dog pens & signage
 \$50.00 for work over 400 sq. ft.
