

Yates Center Sidewalk Program

This is a program to help Yates Center property owners to repair, replace, or level sidewalks that are parallel to the street. This program will allow for a property owner to be awarded a 50/50 grant up to \$750 per property and funds approved will not exceed more than \$4 per square foot per property. A \$25 sidewalk permit from city hall is required.

This grant will be first-come-first-serve. Applicants may be called or asked to come before council to answer questions about the application. The city reserves the right to amend or deny any application. The completion of the project must be before December 31, 2021. All applications must have prior approval from city council. After the job is completed, a bill along with pictures to verify the width, depth and contractual joints must be presented to city hall. The grant payment will be verified and awarded at the following council meeting.

Sidewalk specs and requirements:

- Sidewalks must be at least 4' wide
- Concrete must be at least 4" thick
- Contractual joints every 5'
- Edges must be edged(rounded over)
- A light broom finish is suggested
- Sidewalks must line up with adjoining sidewalks
- Sidewalks can jog around existing trees
- Replacing partial sidewalk is allowed
- Re-bar or reinforcement is not required

*At this time, the grant funds will not include ADA ramps. While ADA compliance is important, we are currently searching for a grant to help offset this cost.

Remit applications to:
